

Food Grade Salt

CODEX STAN 150-1985

The common uses of Food grade salt different in Middle East and Africa have some subtle differences. The Middle East sees a strong demand for high-purity vacuum salt and brine-derived salt for food-grade applications. In the Middle East, there is emphasis on purity, consistency, and compliance whilst In Africa, cultural relevance, mineral richness, and preservation benefits are key in terms of Salt. Nonetheless, food grade has some common uses.

- **FINE TABLE SALT (Iodated and non-iodated)**
- **FINE HIMALAYAN SALT (Natural)**
- **COARSE TABLE SALT (Iodated and non-iodated)**
- **COARSE HIMALAYAN SALT (Natural)**
- **FINE SEA SALT (Iodated and non-iodated)**
- **COARSE SEA SALT (Iodated and non-iodated)**

Food grade salt refers to salt that meets strict safety and purity standards for human consumption. It's not just about taste—it's about trust, traceability, and compliance. Food grade salt is the cornerstone of our brand's promise—precision, purity, and cultural relevance.

It's what sets our product apart in both retail and bulk markets across Africa and the Middle East.
