

Sea Water

CODEX STAN 150-1985

At Hartley Salt, our journey begins with the ocean. We harvest Sea Water from pristine coastal sources, initiating a natural evaporation process that yields high-quality sea salt for culinary, industrial, and wellness applications. This raw material is the foundation of our commitment to purity, sustainability, and performance.

- **Naturally Evaporated – Collected and sun-dried in evaporation ponds for eco-friendly production**
- **Versatile Applications – Used in food processing, water treatment, cosmetics, and chemical industries**
- **Custom Processing & Packaging – Tailored to client specifications, including iodization and particle sizing**
- **Sourced for Sustainability – Supporting environmentally conscious salt production across the Middle East and Africa**

From sea to crystal, Hartley's Sea Water is the first step in delivering salt that meets global standards with regional relevance.
